
Subject Index

B

bioimpedance 39
body composition 39
body mass index 61
bullous lesions 56

C

calcific uremic arteriolopathy 51
calciphylaxis 51
cardiac stress testing 32
cardiovascular morbidity 22
catheters 3
chronic kidney disease 51
chronic peritoneal dialysis 51
complications 3
coronary angiography 32
creatinine clearance 61

D

dialysis adequacy 61
dialysis modality 22

E

encapsulating peritoneal sclerosis 19
end-stage renal disease 56, 61
erosion 15

G

gentamicin 15

H

hepatitis C 56

I

icodextrin 46
iron overload 56

K

kidney transplantation 32

L

late-referred patients 11
left ventricular mass index 39
low-volume PD 11

M

mupirocin 15

N

near vision 7
neutral PD fluid 46

O

obesity 61

P

peritoneal dialysis catheters 15
peritoneal dialysis-related infections 7
peritoneal mesothelial cells 46
peritonitis 15, 19
porphyria cutanea tarda 56
preoperative cardiac evaluation 32

R

renal failure 11
residual renal function 61
risk factors 22

S

small pores 46
sodium thiosulfate 51

U

urgent start 11

V

volume overload 46
